G am  
For centuries down through the ages,  
em am  
I knew I'd find one of my kind,  
G em am  
And I felt not a fear of finding you here,  
am em am  
For I knew you'd be there at my side!

## Chorus

G am  
And through all the time we'll be together,  
em am  
You'll be my strength and my pride,  
G em am  
And if all the long years bring an ocean of tears,  
G am em am  
I'll fear nothing with you at my side.

And now here we stand with each other,  
Our faith has been tested and tried,  
We'll say as we stand to the world hand in hand,  
I'll fear nothing with you at my side.

## Chorus

When we have grown old together,  
We'll look back on the roads we did ride,  
I'll say to you what the years have made true,  
I feared nothing with you at my side.
